## CAPITAL IMPROVEMENT PROGRAM BUDGET MESSAGE

Honorable Mayor and Members of the City Council,

I am pleased to present the City of Paramount's Capital Improvement Program (CIP) Budget for the 5-year period of Fiscal Year ("FY") 2024-25 to FY 2028-29. This is the City's first official long-term CIP document. While the City has always been committed to investing in its infrastructure by allotting funds and resources to complete major capital projects, the Council recognizes the importance and value in transparency with having a long-term capital improvement planning document in place.

Capital Planning is one of the best practices recommended by the Government Finance Officer's Association (GFOA). GFOA recommends that governments prepare and adopt comprehensive, fiscally sustainable, and multi-year capital plans to ensure effective management of capital assets. Over the past few years, the City's need for infrastructure improvement has grown dramatically from 9 projects funded in FY 2020 to 93 projects funded in FY 2025, leaving approximately 107 identified projects unfunded. With limited budgets, projects often compete for funding sources to gain as much as possible for themselves.

This capital plan allows staff to identify and prioritize the anticipated needs in alignment with the strategic plan. It establishes the project scope and cost, details estimated funding from various sources, and forecasts future operating and maintenance expenses. Projects are assessed on financial impact, capital priority, and their alignment with City Council goals and priorities to be included in the five-year plan.

This CIP document reflects staff's thorough review and assessment, serving as a multi-year roadmap for the City's ongoing commitment to maintaining, enhancing, and developing infrastructure to meet the needs of the community. This is a living document and is a snapshot in time. It creates a focused plan that strengthens the City's long-term financial management, ensuring the City's infrastructure needs are met within available resources.

### **CIP Process Overview**

During each budget cycle, City staff assembles a list of capital improvement program projects for the next fiscal year. After the City Council approves the CIP, the Public Works Department is responsible for managing and carrying out projects, and when appropriate, collaborates with other departments to facilitate and manage some capital projects. Projects will go through one or more of these phases, though not necessarily in the order listed.

1. **Budgeting** - Appropriates funds based on projects designated for funding by the Council through adoption of the Budget document.

2. **Procurement** – Selecting and acquiring qualified contactors, consultants, and experts through competitive bidding or other methods to ensure the best value and expertise for the project.
3. **Design** – Preliminary and final design, plan, and specification preparation, and construction cost estimation.
4. **Construction** - Construction of the infrastructure/facility improvements.
5. **Construction Management** - Contract project management & inspection, soils & material tests, other support services during construction.
6. **Equipment Acquisitions** - Vehicles, heavy machinery, computers, office furnishings, and other equipment items acquired and installed independently from construction contracts.
7. **Debt Service** – When necessary, the City will finance the projects. Installment payments of principal and interest for completed projects funded through debt financing. Expenditures for this project phase are included in the Debt Service section of the Financial Plan.

#### **Content and Format of the CIP Budget**

This CIP document includes estimated carryovers from FY 2023-24, FY 2024-25 adopted appropriations, and anticipated CIP amounts for four additional fiscal years through FY 2028-29. This CIP document supplements the FY 2024-25 adopted budget by providing project details and the projected spending plan for the next five years. It is updated annually and the first year of the plan will serve as the current year's capital budget. This document includes summaries and individual pages for each project, its scope, funding source(s) if identified, and projected project total.

#### **FY 2024-25 Adopted Capital Improvement Project Budget**

Many of these projects that were not completed will continue to next year with their unspent budget carried over to FY 2024-25. The City's FY 2024-25 Adopted Budget includes new budget appropriation of \$14,297,200 for capital improvement projects with additional four years of projections through FY 2028-29. When incorporating the estimated unspent budget carryover from FY 2023-24, the current FY 2024-25 CIP budget totals approximately \$73 million and approximately \$168 million over a five-year plan, which include unfunded projects. The adopted FY 2024-25 CIP appropriations by the City Council are reflected in this document and signifies the Council's approval of the current CIP plan.

The major funding sources that make up the CIP budget include \$21.7 million from General Fund, \$38.4 million from various grant funds, \$12.0 million from the Water Fund and \$1.0 million from the Equipment Replacement Fund.

The CIP includes improvements to arterial street corridors and neighborhood streets, and traffic signal hardware upgrades. Additionally, funding has been set aside to continue improving our parks and public facilities while handling vital maintenance needs. Efforts will continue with the design of several large infrastructure projects in the coming years and projects that will better serve our community. This includes improved community facilities, roadway and highway safety improvements, as well as the West Santa Ana bikeway trail that will ultimately connect the Los Angeles River and San Gabriel River.

### **Fiscal Year 2023-24 Capital Improvement Project Accomplishments**

Staff takes great pride in the completion of various projects that positively impact the lives of the Paramount community during the past fiscal year.

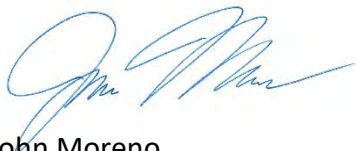

There were several notable achievements during FY 2024, which include the following:

- Paramount Park outdoor restroom renovation
- Installation of a portable restroom at Salud Park
- Playground equipment replacement and resurfacing at:
  - All-American Park
  - Progress Park
  - Dills Park
- Paramount Pool interior upgrades
- Traffic signal installation at Alondra Boulevard and Passage Avenue
- Extension of the reclaimed water line on Lakewood Boulevard for median irrigation
- Neighborhood street resurfacing
- Curb address painting
- City Hall boiler replacement
- Installation of monitoring wells at Well 16 - requested by the State Water Board

Overall, it was a very productive year with capital improvement projects.

Moving forward, we intend to update the CIP document annually and present it to the City Council as part of the budget adoption process. The 5-year plan will be prepared based on the established City Council priorities and objectives for the capital improvement program.

Respectfully submitted this 12th day of November, 2024.

John Moreno  
City Manager

## Capital Improvement Projects Summary by Fund

Funding Source	FY 24 Budget	FY 24-25 Adopted	FY 25-26 Estimate	FY 26-27 Estimate	FY 27-28 Estimate	FY 28-29 Estimate	Total

**WELL #16 DESIGN/CONSTRUCTION**

**CIP # 9116**

**Project Description**

Drilling and construction of new drinking water well at the northwest corner of Garfield and Jackson. This well is a critical component of our water infrastructure system and will allow for increased reliability of less expensive groundwater supply citywide. Given the magnitude of the project, this was broken down into two (2) phases. Phase I included the design/engineering and drilling of the Water Well, which was completed in 2016. Phase 2 includes the equipping of the well, the installation of a treatment system, and the decommission of Water Well 13, our oldest Well in our system that was built in 1978.

**Status/Notes**

In Progress, will Carryover to FY25

**FY 23-24 Budget**

285,000

**FY23-24 Actual Expenses**

-

Unspent budget from FY 23-24 will carry over to FY 24-25

**WATER MAIN IMPROVEMENTS**

**CIP # 9412**

**Project Description**

This is a critical infrastructure project focused on replacing aging water mains to ensure reliable and safe water distribution. This initiative aims to address deteriorating infrastructure, mitigate water loss, and enhance the resilience of our water supply system.

**Status/Notes**

In Design, will Carryover to FY25

**FY 23-24 Budget**

65,000

**FY23-24 Actual Expenses**

8,450

ADVANCED METERING INFRASTRUCTURE

CIP # 9414

Project Description

This project includes the installation of Advanced Metering Infrastructure to replace all water meters citywide. The new meters will provide our community with real time data regarding their water use, will allow for more accurate billing and enhanced leak detection.

INFRASTRUCTURE PROGRAM ASSESSMENT

CIP # WT01

Project Description

The City is requesting an Authorization under Corps of Engineers, Section 219 Environmental Infrastructure Program of the Water Resources Development Act (WRDA). The Authorization is sought to include projects in the City of Paramount as eligible under the program. The funding would provide for technical assistance for planning, design as well as construction of Water, Wastewater and Stormwater infrastructure projects to increase systems' resilience, reliability, public safety, water quality, and environmental compliance with Federal and State regulations. Emphasis will be placed on water storage capacity to increase water system reliability. The Paramount Environmental Infrastructure Program (PEIP) would entail the preparation of planning level documents for each of these elements.

**WEST SANTA ANA BRANCH BIKEWAY PHASE IV**

**CIP # 9132**

**Project Description**

The City has been pursuing funding and land lease agreements to construct the West Santa Ana Branch (WSAB) Bikeway Class I bicycle and pedestrian trail along the railroad right-of-way that runs diagonally across the City. The project has been planned in phases, allowing the City to request funding from different sources and negotiate the various lease agreements in order to complete the approximate 2.3 mile trail that connects users from the Los Angeles River to the San Gabriel River through the cities of Paramount and Bellflower. Phase 4 of this project, from Garfield to the LA River trail, includes bicycle and pedestrian infrastructure improvements including fencing, energy efficient LED pedestrian lighting, landscaping, decomposed granite, Americans with Disabilities Act (ADA) curb ramps, at-grade pedestrian/cyclist crossing, and street furniture for trail users.

ALONDRA BLVD WIDENING

CIP # 9136

Project Description

In December of 2020, the City Council approved a funding agreement with Metro for the design and environmental clearance work for the Alondra Boulevard Capacity Enhancement Improvements Project from Hunsaker Avenue (west city-limit) to Lakewood Boulevard (east city-limit). Metro approved \$4,600,000 for total design costs for the project which is intended to improve traffic flow and reduce congestion on Alondra Boulevard as part of the I-710, I-605, and SR 91 "Hot Spots" Interchange Program. The proposed capacity enhancement improvements consist of roadway and intersection widening, median modifications, parkway narrowing, undergrounding of existing overhead utilities, ADA sidewalk and curb ramp improvements, green streets improvements, and traffic signal modifications. The capacity enhancements will eliminate congestion caused by lane reductions and "bottle necks" and alleviate cut-through commuter traffic in residential neighborhoods.

TRAFFIC SAFETY IMPROVEMENTS

CIP # 9235

Project Description

In 2022, the City was awarded \$250,000 by the State of California Department of Transportation through the Highway Safety Improvement Program State Local (HSIPSL) for traffic safety improvements at seven crosswalk locations citywide. These improvements include installation of new Rectangular Rapid Flashing Beacons (RRFB), high visibility signing, striping, and ADA accessible curb ramps. Additionally, this project will involve the installation of a HAWK pedestrian crossing signal on Orange Avenue at Myrrh Street.

## ARTERIAL STREET RESURFACING (2023)

CIP # 9330

### Project Description

Each year, the City allocates funding for arterial street rehabilitation. This includes grinding down the asphalt and repaving streets, replacing damaged curb and gutter, repairing sidewalks, and installing Americans with Disabilities Act (ADA) curb ramps to ensure proper access for all pedestrians. Repairs are planned based on the recommendations of the Pavement Management System. The report is a comprehensive review of the condition of all city streets within Paramount boundaries and identifies those streets in most need of repair. This project includes the following streets: Orange Avenue from Somerset Boulevard to Rosecrans Avenue.

TRAFFIC SAFETY IMPROVEMENTS (2024)

CIP # 9432

Project Description

We were successful in obtaining Caltrans grants through their HSIP (Highway Safety Improvement Program) cycles, for a total of \$1.1M. These improvements follow the states' program criteria and include upgrades to signal hardware and installation of pedestrian countdown signal heads at 15 locations citywide. The signals at Rosecrans Ave and Downey Ave, as well as Somerset Blvd and Downey Ave, will receive an additional countermeasure to modify signal phasing in order to implement a leading pedestrian interval that will assist with school pedestrian traffic at these intersections.

## HUNSAKER TRAFFIC SAFETY IMPROVEMENT

CIP # 9433

### Project Description

The City received a Highway Safety Improvement Program (HSIP) Grant to improve pedestrian and bicyclist safety on Hunsaker Avenue from Alondra Boulevard to East 72nd Street (southerly city limit). The proposed improvements include reduction of vehicle lanes and installation of dedicated bicycle lanes, and a traffic circle at the six-legged intersection of Hunsaker Avenue and east 72nd Street. In addition to improving the multi-modal complete street roadway design, the project can improve the existing off-street parking along Hunsaker Avenue.

**MEDIAN ENHANCEMENTS**

**CIP # 9435**

**Project Description**

The City takes pride in the landscaped medians located on our major boulevards throughout the city. These medians, installed in the early 90's, were planted with lush grass turf, star jasmine plants, and pine trees. In January 2014, then Governor Jerry Brown issued an executive order that called for California to reduce water usage. This order came with several requirements for cities, including one that banned the use of potable water to irrigate turf on City medians. In an effort to remediate, as turf in these medians began to turn brown, the City began removing grass and replacing it with drought tolerant plants. During Fiscal Year 2023-24 Budget discussions, the City Council directed staff to look into additional enhancements to the medians.

## ARTERIAL STREET RESURFACING (2025)

CIP # 9530

### Project Description

Each year, the City allocates funding for arterial street rehabilitation. This includes grinding down the asphalt and repaving streets, replacing damaged curb and gutter, repairing sidewalks, and installing Americans with Disabilities Act (ADA) curb ramps to ensure proper access for all pedestrians. Repairs are planned based on the recommendations of the Pavement Management System. The report is a comprehensive review of the condition of all city streets within Paramount boundaries and identifies those streets in most need of repair. This project includes the following streets: Orange Avenue from Alondra Boulevard to the City Limit.

NEIGHBORHOOD STREET RESURFACING (2025)

CIP # 9531

Project Description

Each year, the City allocates funding for neighborhood street resurfacing. This includes grinding down the asphalt and repaving streets, replacing damaged curb and gutter, repairing sidewalks, slurry seal pavement, and installing Americans with Disabilities Act (ADA) curb ramps to ensure proper access for all pedestrians. Repairs are planned based on the recommendations of the Pavement Management System. The report is a comprehensive review of the condition of all city streets within Paramount boundaries and identifies those streets in most need of repair. This project includes the following streets: Jefferson Street from Garfield Avenue to Georgia Avenue.

WEST PARAMOUNT UTILITY EASEMENT MULTI-USE PATH

CIP # 9532

Project Description

The City recently received grant funding through the Active Transportation Program (ATP) to install a dedicated bike and pedestrian trail along the Southern California Edison easement from North of Salud park, all the way to the West Santa Ana Branch Bikeway Phase 4 just south of the 105 freeway. This project is currently in design.

**ROSECRANS BRIDGE REPAIR**

**CIP # 9833**

**Project Description**

The City received funding from the Federal Highway Bridge Program (HBP) for the rehabilitation of the Rosecrans Avenue Bridge(s) over the Los Angeles River. The Rosecrans Avenue Bridge is on a major arterial in the City of Paramount which provides an east-west connection between Interstate 710 Long Beach Freeway and State Route 19 Lakewood Boulevard. The proposed improvements will extend the bridge life, as well as, bring the bridge to current standards and in compliance with the Association of State Highway Transportation Officials (AASHTO). This project is a multi year project that includes design and determination of appropriate repairs.

WEST SANTA ANA BRANCH BIKEWAY PHASE II

CIP # 9932

Project Description

The City has been pursuing funding and land lease agreements to construct the West Santa Ana Branch (WSAB) Bikeway Class I bicycle and pedestrian trail along the railroad right-of-way that runs diagonally across the City. The project has been planned in phases, allowing the City to request funding from different sources and negotiate the various lease agreements in order to complete the approximate 2.3 mile trail that connects users from the Los Angeles River to the San Gabriel River through the cities of Paramount and Bellflower. Phase II of this project, from Somerset Boulevard to Rosecrans Avenue, includes bicycle and pedestrian infrastructure improvements including fencing, energy efficient LED pedestrian lighting, landscaping, decomposed granite, Americans with Disabilities Act (ADA) curb ramps, at-grade pedestrian/cyclist crossing, and street furniture for trail users.

**STORM DRAIN IMPROVEMENTS**

**CIP # ST01**

**Project Description**

This project will include design and construction of modifications to the City's storm drain system in order to increase the capacity of storm drains to accommodate peak flow rates during heavy rainfall events, thereby reducing the risk of localized flooding and water damage. This project will focus on design only for two project locations: (1) Madison Street between Paramount and Downey; and (2) Jefferson Street west of Paramount at Colorado, Vermont and Minnesota

**CURB ADDRESS PAINTING**

**CIP # ST04**

**Project Description**

Repainting of curb addresses for all residential addresses in the City. Address numbers painted on curbs play an important role when it comes to providing a quick and easy way for emergency responders, delivery services, and others to locate properties. This project will ensure that every single and multi-family home within the City shall have its address number painted on its corresponding curb.

**ROOF REPLACEMENT - PARAMOUNT GYM**

**CIP # MI06**

**Project Description**

The existing roof of the Paramount Park Gymnasium is reaching the end of its lifespan and is showing signs of significant wear and deterioration. Regular inspections conducted by our maintenance team have identified multiple issues such as leaks, water damage, and structural weaknesses. Additionally, the project slated for installation of solar panels can not be completed until the roof has been replaced. The proposed project involves the complete replacement of the existing roof with a new, durable roofing system.

## SPANE PARK STORMWATER CAPTURE

CIP # 9295

### Project Description

Design and construction of a regional stormwater capture and infiltration facility located at Spane Park beneath the open space of the existing park surface. The scope of the project will include: Diversion and pre treatment system, an underground storage reservoir, infiltration and filtration element, nature based solutions (e.g. bioswale, ephemeral stream, LID BMPs in parking lots) and surface improvements including a new soccer field, picnic shelter, and vegetation.

EV CHARGING STATIONS EDISON CHARGE READY PROGRAM

CIP # 9393

Project Description

In July of 2021, Southern California Edison (SCE) announced a new program, Charge Ready, to create a vehicle charging infrastructure program where over 38,000 new charging stations will be installed throughout the region. Staff applied for the Charge Ready program for 10 charging ports at Paramount Park and another 12 at Progress Park. We have received approval from SCE for both projects, however this project includes minor costs for installation of charging stations.

**WILLDAN ENERGY AUDIT PROJECT**

**CIP # 9493**

**Project Description**

On March 28, 2023, the City Council approved a Contingent Design and Engineering Services agreement with Willdan Energy Solutions (WES). This approval authorized the City to initiate a comprehensive energy efficiency analysis, involving multiple tasks at various City sites and buildings. WES provided recommendations for projects that not only cut energy costs for the City, but also align with the objectives outlined in the City's Climate Action Plan (CAP). The projects include the installation of solar photovoltaic systems at Paramount Park and City Yard, and an Electric Vehicle Quick Charger installation at the City Yard.

## DRYWELL INSTALLATION - MEADOWS AND VILLAGE PARKS

CIP # SU02

### Project Description

As stewards of our community's green spaces, we recognize the importance of sustainable stormwater management in preserving the natural beauty and functionality of our parks. The Drywell Installation Project at Meadows Park and Village Park represents a proactive approach to address stormwater runoff challenges and enhance the environmental resilience of our park.
