What Is Adderall 20mg?

Adderall 20mg is a well-known prescription medication containing **amphetamine and dextroamphetamine**, two active ingredients that help improve attention span, focus, and impulse control. It is mainly prescribed for **Attention Deficit Hyperactivity Disorder (ADHD)** and **narcolepsy**, helping users maintain better mental alertness and daily productivity.

At Primedrugstores.com, we source **authentic Adderall 20mg tablets** from verified pharmaceutical manufacturers to ensure you receive only genuine and safe medication every time you order.

How Adderall 20mg Works

Adderall 20mg acts on the **central nervous system**, enhancing the levels of dopamine and norepinephrine — two neurotransmitters responsible for alertness, concentration, and mental clarity. When taken as directed, it helps improve academic, work, and personal performance for individuals diagnosed with ADHD.
