### About Diazepam (Generic Name: Valium)

**Diazepam**, commonly known by its brand name **Valium**, belongs to the **benzodiazepine** class of medications. It is prescribed for **anxiety disorders, muscle spasms, seizures, and symptoms of alcohol**

**withdrawal.** Diazepam works by enhancing the effects of **GABA**, a natural chemical messenger that calms the nervous system and reduces excessive brain activity.

When taken as directed, Diazepam helps users regain control over stress and anxiety while promoting deep relaxation and restful sleep. Its reliable formulation makes it a preferred choice among healthcare providers worldwide.
