What is Hydrocodone 10/325mg?

Generic Name: *Hydrocodone Bitartrate and Acetaminophen*

Category: Prescription Opioid Pain Relief Medication

Hydrocodone 10/325mg works by binding to specific receptors in the brain and nervous system to alter pain perception. The addition of Acetaminophen enhances the pain-relieving effects and helps reduce fever. This combination provides **effective, long-lasting relief** for patients who do not respond well to standard over-the-counter pain medicines.
